DFO 89-43, Serial 9518a

Exemptions claimed, withholdings

This is a form on which it is directed to "Transmit attached by facsimile in plaintext." It is from Dallas to the Director on the subject of Jack Ruby of May 22, 1975.

The name of the person in Division 6 to whose attention the facsimile was directed is withheld under the claim to (b)(7)(C).

The plaintext facsimile is not attached.

From the worksheets Serial 9518 is two pages of a newspaper clippping from a Dallas newspaper; previously processed is the notation. There is no certain way of relating a newspaper clipping from an FBIHQ file with Serial 9518a . This illustrates still another reason why the method of processing is both wrong and unacceptable and an invitation to serious error in historical cases.
